Instructions to Bidders

1. Introduction

- 1.1 The Consultants are invited to submit a Technical Proposal as specified in the Data Sheet. The Proposal shall be that basis for a signed Contract with the selected Consultant.
- 1.2 The Consultant shall bear all costs associated with the preparation and submission of its Proposal and contract negotiation.
- 1.3 The Client is not bound to accept any Proposal and reserves the right to annul the selection process at any time prior to award of contract without thereby incurring any liability to the Consultant.
- 1.4 **Eligibility Criteria**
The bidders should satisfy the following minimum and those as specified in the Data Sheet. Only those who satisfy these criteria should submit the proposal with necessary supporting document:
 - 1.4.1 A firm declared ineligible by the Government of India or Government of Chhattisgarh shall be ineligible to provide consulting services under the project.
- 1.5 **Number of Proposals**
 - 1.5.1 Consultants may only submit one proposal. If a Consultant submits or participates in more than one proposal, such proposals shall be disqualified.

2. Clarifications of RFP Documents

- 2.1 Consultant may request clarification of any of the RFP document up to a specified number of days before the submission date as indicated in the Data Sheet. Any request for clarification must be sent in writing, including by standard electronic means, to be Client's representative whose address is provided in the Data Sheet. The client will respond by standard electronic/self means within the period specified in the Data Sheet, and will send written copies of the response (including an explanation of the query, without identifying the source of inquiry) to all Consultants who have formally indicated that they intend to submit a Proposal. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure set out under Clause 2.2.
- 2.2 At any time before the submission of Proposals, the Client may amend the RFP by issuing an addendum in writing, including by standard electronic means.

3. Preparations of Proposals

- 3.1 The Proposal and all related correspondence exchanged between the Consultant and the Client shall be written in the English or Hindi language. Supporting document and printed literature that are part of the Proposal may be in another language provided they are accompanied by an accurate translation of the relevant passages in English, in which case, for the purposes of interpretation of the Proposal, the translated version shall govern.
- 3.2 The Consultant shall bear all costs associated with the preparation and submission of its Proposal. The Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.

4. Instruction for submission of Proposal

- 4.1 These instructions should be read in conjunction with information specific to the consulting services contained in the Covering Letter, Data Sheet and accompanying documents.
- 4.2 Proposals must be received before the deadline specified in the Data Sheet to tender. Proposals specified in the Data Sheet.
- 4.3 Consultants shall submit one sealed envelope, containing the Technical Proposal. The Technical Proposals will be opened at the date and time specified in the Data Sheet.
- 4.4 Technical Proposal (see Annexure B)

Annexure D: Terms of Reference

1. Project Background

The recently launched National Urban Livelihood Mission (NULM) aims to promote sustainable development of the large informal and unorganized workforce in the urban areas. NULM urges special attention on street vendors as an occupational group in the informal sector and requires that interventions be designed for this group so as to improve their quality of life. It is estimated that in several cities street vendors count for about 2 percent of the population. Women constitute a large segment of these street vendors in almost every city. Street vending is not only a source of self-employment to the poor in cities and town but also a means to provide “affordable” as well as “convenient” services to a majority of the urban population. With this background, the aim of this exercise is to support Municipal Corporation in preparing the City Street Vending Plan (CSVP) for Durg City. The brief description of the tasks to be undertaken in this project is listed as below:

2. Identifying the Street Vendors

The first and for most tasks is to identify and profile the street vendors. Street vendors in **Municipal Corporation Durg CG**, have to be identified and estimated and numbered at ground level for Biometric process. Vendors need to be classified under three major categories:

Stationary: Those who carry out vending on a regular basis at a specific location e.g. those occupying space on the pavements or other public places and/or private areas either open/covered (with implicit or explicit consent) of the authorities, and operating on usufruct rights.

Peripatetic/wandering: Those who carry out vending on foot and sell their goods and services and includes those who carry baskets on their head/slung on their shoulders and those who sell their goods on pushcarts.

Mobile: Those who move from place to place vending their goods or services on own vehicles like bicycle or mobile units on wheels, motorized and manually driven, as well as in moving buses, local trains etc.

While categorizing the street vendor based on the above, care may be taken to ensure that the unique characteristic that differentiates a street vendor from other types of vendors, i.e., that they complete their transactions by the end of the day or part of the day thereof, following which they will wrap up their wares and remove them from the spot till the next time of vending.

During the identification period, wide publicity of the event will be taken up in the ULB through banners and mike announcement to ensure that those members not covered by the enumerator during the field canvassing of questionnaires can physically come to the Municipal and get registered.

Once the vendor list is finalized, the following tasks have to be undertaken:

1. Identification of areas where street vendors have been profiled which may be classified as restriction-free, restricted and prohibited vending zones based on set criteria. These criteria may be determined in advance by the ULB in accordance with the broad framework given by the government in the National Street Vending Policy 2009 and the Vendors' Act 2014
2. Identification of existing natural and emerging markets for considering the possibility of developing them in to regular markets and vending zones in a PPP mode to result in a win-win situation – for the vendors, the potential users of the services and the vehicular and pedestrian traffic
3. Identification of vending zones operation on time-sharing basis as well as weekend market zones
4. Work out the carrying capacity of the vending zones identified
5. Work out procedure of allotment of spaces for vendor's markets for regular as well as vending on time-sharing basis including the period of validity of the allotment of spaces for the vendors.

3 GIS Base Mapping and Surveys

GIS mapping has to be undertaken at two levels namely City level mapping and vendor level mapping.

3.1 City Level Mapping

The geo-referenced base map of the city shall serve as a foundation for preparing Street Vending Plan where all other thematic maps may be overlaid for spatial analysis. Thus, it shall aid Planners in preparing Vendor Plan. City level GIS mapping has to be done with the help of latest satellite imagery. For that purpose, Procurement of Cartosat II/Quick Bird/World View satellite image from the National Remote Sensing Agency (NRSC) or any other authorized Agency for the project area has to be purchased by the Consultant and it shall be reimbursed by the client.

The following layers have to be created in city level mapping:

1. City/Municipal and ward boundaries
2. Vendors/vendor zones will be captured using GPS equipment
3. All water bodies, viz., Stream, creeks, tanks, etc
4. Roads with classification as Arterial /Sub arterial/Slum roads etc.
5. Railroads, Other landmarks such as temples, mosques, church etc.

3.2 Vendor Location Level Mapping

The delineation of vendor zonal boundaries has to be done with the full involvement of the vendors and its association, if any. The delineation of boundary will be done in GIS with the help of GPS coordinates captured for all the vendors.

This will be based on the division of the zones for restriction free vending, as well as for vending on restricted basis ;and areas where vending is prohibited. This activity will take into account existing norms, if any, in the -----city level, the authenticity of such a division. Existing norms pertaining to the zoning (green, amber and red zoning) will be studied and relevant norms for the city will be worked out.

3.3 Capturing Photo and biometric identity of Street vendors

The following steps have to be followed for capturing photo and bio-metric identity of the vendors:

1. Developing and implementation of user interface to capture photo and biometric identity data
2. Installation or deployment of user interface software in laptops/computers to capture photo and biometric identity data
3. Store photo and biomatric data into data base in appropriate format.
4. Check and validate stored photo and biometric data.

3.4 Preparing ID cards for Street vendors

Each vendor surveyed has to be given photo ID cards and the steps followed are listed as below:

1. Format preparation for ID cards to print.
2. Verify the correctness of data
3. Print Street Vendor Photo ID cards.

Such identity cards & license has to be given to the street vendors after approval & in the manner Prescribed by the Competent Authority (Street vending committee/organization).

3.5 Preparing MIS Software

A data base of all street vendors will be maintained by the ULB. So Consultant will have to prepare software which helps ULB to maintain all records of vendors in future also. As vendors are mobile, the software should be able to track (based on either present/permanent address or any other criteria) whether the vendor has already been covered and issued an Identity Card. For such purpose, software has to be developed for monitoring after implementation of the street vending Plan to monitor the entire allotment, registration and the whole above process.

3.6 Vendor Census Survey

Consultant has to conduct of survey for identification and enlisting of street vendor and it has to be carried out with trained enumerators in a digital. The survey should preferably be conducted on a whole city basis. Alternatively, the Consultant may also choose to complete the survey in a phased manner, covering one area (word/zone/specified part of city) at a time. In this case, the area survey must cover all street vendors in the area being surveyed. Consultant has to developed methodology for conducting the survey. At a minimum, the survey must include Name, Name of parents, Permanent Address Present Address, Identity proof (if any) Telephone number (if any), Place of vending, Type of vending activity, Time/Duration of engagement as a vendor, Details of family members, if identified as beneficiary/poor for any of the government schemes like Food Security Act. TPDS, SJSRY, etc (using survey format prepared by ULB of finalized with ULB).

During the survey, the original documents pertaining to present/permanent address proof, especially in the case of migratory population may also be verified so that the Identity Cards issued to the surveyed street vendors can act as sufficient documentation for opening of their bank accounts, getting loans from banks, accessing social security benefits, etc.

The ULB will issue Identity Cards to all the surveyed/identified street vendors. A data of all street vendors will be maintained by the ULB. Since the vendors are mobile, the software should be able to track (based on either present/permanent address or any other criteria) whether the vendor has already beer. Covered and issued an identity card.

3.7 Preparing de-duplication software

In order to avoid duplication, consultants have to develop de-duplication software and the steps have to be followed are as listed below:

1. Developing and Implementation of de-duplication software to verify captured biometric data.
2. Generate a report for duplicated (bulk) biometric data
3. Allow duplication verification process while capturing biometric data at the later stage.

4. Preparation of City Street Vending Plan

The consultant has to prepare Street vending plan which will contain the following:

- (i) Profile of street vending trades and activities
- (ii) Spatial distribution of street vending activities
- (iii) Earmarking of space or area for vending zones;
- (iv) Determination of vending zones as restriction- free vending zones, restricted zones and no-vending zones
- (v) Estimates of holding capacity of vending zones, which is the maximum number of street vendors who can be accommodated in any vending zone
- (vi) Understanding of key challenges, constraints and issues relating to street vending

(vii) Possible solution and Potential Street vending areas.

The Street Vending Plan will also take into account the natural where sellers and buyers naturally congregate for the sale and purchase of products and services. The Plan will be developed after consultations with Street Vendor's representatives and other relevant stakeholders.

While preparing the Street Vending Plan, the consultant shall coordinate with the city police, traffic police, planning authority and other local agencies should also devise and promote vendor friendly policies, solutions and strategies to accommodate and facilitate street vending in a manner that is conducive to street vendors and the public at large. This may include policies for traffic lighting, water, sanitation and waste disposal in street vendor market areas. The ULB may coordinate with planning authorities to develop pro-vending norms and stipulation of vending spaces in new or refurbished roads, markets, office and residential complexes and other public space and public infrastructure. This will ensure greater acceptability of Street Vending Plan among the stakeholders.

The consultant should make every effort to minimize disruption to existing markets while developing the city street vending plan. According the plan may be developed in such a manner that no relocation or eviction of street vendors place. Re-location of street vendors, if required, must be based on consultation with the affected vendors. Based on the survey findings, the City Street Vending plan may also include a digitized or non-digitized map of vending activities, vending, vending trades and existing markets at word or zone level.

Management Information system - Street vending plan has to suggest methods of Monitoring system using MIS software. For such purpose, software has to be developed for monitoring after implementation of the street vending Plan to monitor the entire allotment registration and the whole above process. This MIS software has to be developed in consultation with the Municipal Corporation.

City Street Vending Plans will be submitted to the State Urban Livelihood Mission, CG (SULM, CG) for approval, and will be considered final once approved by SULM.

5. Preparing Detailed Implementation Plan (DIP)

The Consultant has to prepare a Detailed Implementation Plan (DIP) for infrastructure improvement projects which may include improved civic facility such as paving water supply, toilets waste projects disposal facility lighting, common storage space, and specialized carts for specific types of trades, temporary sheds and/or parking facilities. The infrastructure requirements for vendors markets will be assessed based on consultation with be facilitated by the ULB.

The DIP for infrastructure improvement must be prepared only after the vendor survey and the master plan for the area where the projects it located, has been complete. While preparing the DIP, provision for providing specialized carts to the street vendors for specific types of trades such as food vending etc. may be included with a view to improve the hygiene and optimal utilization of space. These carts may be funded through individual loans covered under the SEP component of NULM

5.1 DIP should contain:

- (i) Project rationale, detail of beneficiaries and stakeholders, how it will contribute to improved street vending in the surrounding area, and how it fits within the overall City Street Vending Plan street vending Plan
- (ii) Land ownership details
- (iii) Relocation plan, if any must be supported project details from the affected street vendors and/their association.
- (iv) Specific infrastructure improvement project details with costs, including operations and maintenance plan
- (v) Detailed and complete list of beneficiaries who will benefit from the project
- (vi) Safety concerns, if any relating to fire hazard or other hazards.

DIP must be submitted to the State Level Project Sanctioning committee of SULM, CG for after approval of City Street Vending Plan (CSVP)

6. Outputs and Deliverables

The following outputs are expected to be delivered in stages

Sr. No	Deliverable	Copies	Due date
1	Submission of inception report (including detailed survey strategy of street venders in city & report of kickoff workshop)	2 set of hard copies & 2 set of soft copies	End of week 2
2	Vendor Identification, Bio-metric survey, capturing photograph, Vendor census survey and GIS mapping of the existing Vendors	2 set of hard copies, along with of details & 2 set of soft copies	End of week 15
3	Draft Street Vending Plan	2 hard copies & 2 set of soft copies	End of week 22
4	Final Street Vending Plan (approved by Municipal Corporation & by SULM)	3 hard copies & 3 set of soft copies	End of week 26
5	Draft Detailed Infrastructure Plan (DIP)	2 hard copies & 2 set of soft copies	

Above given time schedule shall be strictly adhered to. In case of any delay Municipal Commissioner may consider time extension on the merits otherwise a penalty for delay at the rate 0.25% of total payment per week shall be levied.

7. Experts and Inputs

Sr. no.	Expert Title	Qualification and Skills	Experience
1	Team Leader/Urban/Development Specialist	<ul style="list-style-type: none"> ▪ Masters or equivalent in planning/engineering/economics/other relevant disciplines ▪ Sound knowledge of urban development issues 	Sector experience of more than 10 yrs experience of project management of similar projects of at least 5 yrs
2	MIS expert	<ul style="list-style-type: none"> ▪ Degree in Computer Science/MCA ▪ Expertise in statistical analysis and software development/MIS applications 	At least 5 years experience

3	Social Development Specialist	<ul style="list-style-type: none"> ▪ Degree or equivalent in social development discipline ▪ Sound understanding on issues of urban poor 	At least 5 years working experience with urban poor and community development
4	GIS expert	<ul style="list-style-type: none"> ▪ Masters of equivalent degree in Geo-informatics ▪ Knowledge and experience in GIS mapping 	At least 5 years experience
5	Project Engineer/infrastructure Specialist	<ul style="list-style-type: none"> ▪ Degree in Civil Engineering ▪ Sound knowledge of municipal services network, design norms, contracting 	At least 5 years experience in Project engineering
6	Capacity Building/Training/Site coordinator	<ul style="list-style-type: none"> ▪ Bachelors/Master in Urban Planning/social science ▪ Good understanding of surveys and experience in data collation and analysis ▪ Good communication and networking skills 	5 years experience working on urban projects.

The persons whose CVs are proposed in the bid shall not be allowed to change in case of any urgency. Municipal Commissioner may consider request of the bidder.

8. Working arrangements

8.1 Management and counterpart staff

The assignment will be contracted by the Municipal Corporation Durg, and will ensure the support of government officials, parastatal agencies wherever necessary.

Municipal Commissioner, Municipal Corporation Durg, will;

- a. Designate on "Office in charge" responsible for management and coordination of consultants.
- b. Constitute multi-stakeholder City Level Street Vending Committee,
- c. As a part of this corporation will nominate officers from relevant sections of the agency to participate in the process of stakeholder CSVP preparation.
- d. Provide the Consultant with existing maps (as available with it) data on Corporation and service delivery.
- e. Provide the Consultant with necessary authorization to procure to procure information from line departments.

8.3 Consultant will be responsible to:

- a. arrange its own office space and equipment, surveys
- b. arrange for all transportation and travelling required
- c. Arrange its own translations, communication, data processing and printing equipment and necessary stationeries
- d. Work closely with the office in-charge and the Corporation.

9. Payment Schedule

Sr. no.	Deliverable	Percentage of payment
1	Submission of inception report (including detailed survey strategy of street vendors in city & report of kickoff workshop)	10% of the total fees
2	Vendor Identification, Bio-metric survey, capturing photograph. Vendor census survey and GIS mapping of the existing Vendors	40% of the Total fees
3	Draft Street Vending Plan (Submission of Draft Street Vending Plan to Municipal Corporation)	10% of the Total fees
4	Final Street Vending Plan (After approval from Municipal Corporation & State Level Project Sanctioning Committee plan of SLUM, CG)	20% of the Total fees
5	Draft detailed Infrastructure Plan (DIP)	
6	Draft detailed infrastructure Plan (DIP) must be submitted to State level Project Sanctioning Committee of SULM, CG	20% of the Total fees
